**Subject:** Opinion on Microsoft

Can you imagine what the federal government, AND MOST BUSINESSES would be like if there were dozens of operating systems using totally incompatible versions of software that would result in a larger debacle in Washington and the business world than we now have.

Bill Gates had the initiative to start Microsoft. It would serve all those jealous jerks right if Mr.... Gates would sell ALL of his shares in the company, close it down, and say ADIOS!! I DON'T HAVE TO PUT UP WITH THIS CRAP !!!!!
